**Stack overflow Profile:** <https://stackoverflow.com/users/9981031/vrush-patel>

### **Professional Summary:**

- A professional **Mobile Application Developer** with extensive experience developing **native** as well as **Hybrid Apps**.
- Successfully built and deployed full scale **Flutter** applications as per client's requirement.
- Good grasp over languages - Kotlin, Java and Dart.
- Working experience in UI development, Application Architecture, versioning tools and deployment.
- Has good understanding of **SOLID principles, Design patterns** and **clean architecture by gangs of four**.
- Knowledgeable about back-end development and documentation.
- Consummate collaborator with clients, management, and team members.

### **Core Qualifications**

- **Bachelors of Engineering – Information Technology** - 8.03 CGPA  
Gujarat Technological University 2018

### **Work Experience:**

#### **QuEST Global**

**Senior Software Engineer**

**Oct 2022 – Present**

- Work for Reliance Jio Bangalore as Consultant.
- Helped bugfixes in JioEnergy app used for charging station for Electric Vehicles.
- Worked on Avni OS used in Electric Vehicle's Dashboard.
- Created BLE communication library for internal as well as client use. Library uses event loop and sends data on threads.
- Used event channel for data binding with native layer.
- Feature based development architecture implemented using BLOC library.
- Currently working on JioThings application an umbrella app for jio's IOT devices.

#### **Publicis Sapient**

**Associate Technology L2**

**Feb 2022 – Oct 2022**

- Worked on white labelled banking application in Flutter framework with Bloc, GetIt, http\_interceptor, graphql\_flutter, ssl\_pinning\_plugin.
- Used Clean architecture for creating reusable decoupled code.
- Written highly accurate unit test with at least 80% or more coverage.

- Created reusable widgets components with widget testing.
- Attained advanced kotlin training conducted by industry leader and submitted Food Delivery app having MVVM, Coroutine, Hilt Dagger and SOLID principles.

**Openxcell Technolabs Pvt. Ltd.**

**Flutter Developer**

**Oct 2020 – Jan 2022**

- Design & implement new app modules based on the product requirements using Flutter framework.
- Build reusable code and libraries for future use.
- Build user interfaces designed by UI/UX designers.
- Integrate various APIs from third parties.
- Debug existing apps components, fix issues and avoid regressions.
- Participate in software architecture, design discussions and code reviews.
- Handling client communication and updates with stakeholders.
- Solid understanding of the full mobile development life cycle, including automated testing and building
- Experience in code versioning tools, such as Git and project management tools like Basecamp.

**eSparkBiz Pvt. Ltd.**

**Team Lead - Mobile Application Development**

**Jan 2019 – Sept 2020**

- Respond to client needs for applications with an eye to the most feasible and effective solutions.
- Guide and mentor junior developers, delegating tasks, enhancing their skills.
- Coordinate with team members to create client apps in a coordinated and timely manner.
- Ensure that apps are tested to meet total performance requirements.
- Optimize the interfacing of the apps with a variety of systems to ensure flexible and agile use.

**eSparkBiz Pvt. Ltd.**

**Android Developer**

**Jan 2018 – Dec 2018**

- Utilized advanced functions of the Java software development kit (SDK) in order to optimize the flexibility of apps to different mobile devices.
- Recorded exact details of errors during testing for further remediation.
- Checked on all source code to ensure usability by development staff.
- Created increased mobile adaptability for current apps in order to extend marketability.
